Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 19 September 2005.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1, 3-4, and 6-29 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The amendment of September 19, 2005 added the limitation to independent claim 1 that the “data is not calibrated”, and to independent claims 13 and 17 that the at least one laser scanning unit includes means for gather “non-calibrated” data. However, as mentioned in at least the interview of June 2, 2004 (see the interview summary thereof) and the response to arguments section of the office action mailed 3/18/2005, these limitations do not appear to be supported by the specification as originally filed.

Specifically note that in the present invention, it appears that the specification as originally filed teaches that the signal or data in the present application is “smoothed” and/or “transformed” and/or “calibrated” (see at least pages 15-16 of the present specification, for example, as well as Figure 26 and claims 5-6 as originally filed, and also page 8, the paragraph

Art Unit: 3722

beginning “[T]he laser scanning units use a ...”). There does not appear to be any teaching in the specification as originally filed of any “non-calibrated” data.

Response to Arguments

4. Applicant's arguments filed September 19, 2005 have been fully considered but they are not persuasive so as to put the case in condition for allowance.

5. Examiner agrees that the Garuet-Lempirou reference does not teach a scanning “requiring no calibration”, and the prior art rejections have been withdrawn in light of Applicant's amendment.

6. However, Examiner notes that the claims are still rejected under 35 USC 112, 1st paragraph as set forth above.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
